

# Patient Feedback – Three months therapy results from Switzerland

♥ 0

The following data was compiled from a selection of patients that have received coumarin derivative based supplement.

## Diagnosis: Chronic Hepatitis C Infection

Three cases: All received 2 or 3 months coumarin derivative based supplement with B Complex

Results	AGE		AST (normal range 6-37)	ALT (normal range 5-40)
Patient 1	45	pre	235	220
		post	95	80
Patient 2	48	pre	130	125
		post	65	40
Patient 3	65	pre	320	325
		post	100	115

## Diagnosis: Chronic Hepatitis B Infection

Two cases: Both received 3 months coumarin derivative based supplement

Results	AGE		AST (normal range 6-37)	ALT (normal range 5-40)
Patient 1	49	pre	255	248
		post	198	200
Patient 2	52	pre	251	250
		post	153	125

## Diagnosis: Acute Alcoholic Hepatitis

Four cases: All received 30 days of coumarin derivative based supplement with alcohol abstinence/ rest

Results	AGE		AST (normal range 6-37)	ALT (normal range 5-40)
Patient 1	42	pre	450	465
		post	75	83
Patient 2	40	pre	543	512
		post	53	35
Patient 3	46	pre	185	176
		post	35	30
Patient 4	49	pre	197	190
		post	28	34

## Diagnosis: Acute Toxic Hepatitis due to organic solvent

One case: Received 45 days of coumarin derivative based supplement with no further exposure and rest

Results	AGE		AST (normal range 6-37)	ALT (normal range 5-40)
Patient 1	47	pre	430	411
		post	135	105

## Diagnosis: Hepatitis of Unknown Cause

Three cases: Received 45 days, 3 months and 4 months respectively, of coumarin derivative based supplement with vitamins

Results	AGE		AST (normal range 6-37)	ALT (normal range 5-40)
Patient 1	33	pre	102	96
		post	45	38
Patient 2	41	pre	850	725
		post	135	120
Patient 3	49	pre	980	976
		post	112	105
