

Renol

- UROLOGICAL DISORDERS, INFECTIONS, URINARY STONES
- PROSTATE CONDITIONS, INFERTILITY
- DEGENERATIVE AND INFLAMMATORY JOINT DISEASES
- ECZEMA, RASH, ACNE
- HIGH BLOOD PRESSURE, SWELLING
- HEADACHE, HEARING AILMENTS

This product is approved as a dietary supplement. It is not a medicine and should not be confused with prescribed medicines, nor does it have approved medicinal effects.

Renol is a herbal regenerative bioinformation product with a broad-spectrum effect formulated based on the current knowledge in the fields of physiotherapy, psychotronics, crystal therapy and bioresonance. This is a highly concentrated product containing herbal extracts, essential oils and bioinformation components in a balanced, synergistic complex.

Renol helps alleviate mainly problems with the urogenital system and joint diseases. It may have positive effects on blood and lymph.

Bioinformation comprises frequencies which simulate the control impulses of subcortical brain structures, which regulate the autonomic nervous system and the function of viscera. Bioinformation acts to offset negative information and induce a reverse regenerative process.

Effects of Renol

Due to a complex of plant extracts and information, Renol may have strong detoxification, antioxidant and regenerative effects. It may influence normal function of the excretory organs (kidneys and urinary bladder), adjust the efficiency of the body with minerals and maintain the optimum blood pH. Correct renal function is related to erythrocyte formation in the bone marrow and to blood pressure regulation. It is also related to maintaining normal flow of all fluids (e.g. lymph) through the body and homeostasis. The whole musculoskeletal system (bones and joints) is also energetically connected to the excretory organs, and Renol may be used to treat musculoskeletal system illnesses. Renol may also boost proper function of the male glands and male fertility. The kidneys are a very sensitive organ, which may be very difficult to restore if damaged. They hold stored natural energy, and if overburdened, this energy may leak, eventually leading to a decrease in all functions in the human organism. Renal function should therefore be strengthened to avoid premature aging.

Energy effects of Renol according to TCM principles

Renol may harmonize energy meridians, mainly the kidney, urinary bladder, spleen and three burners.

Usage of Renol

- May support detoxification of the body and have antioxidant and regenerative effects
- Is designed to regenerate the kidneys, adrenal glands, urinary bladder, prostate and lymphatic system
- May help prevent urinary bladder and tract infections, difficulties urinating, renal diseases, formation of kidney stones and certain chronic gynecological illnesses (cervical inflammation and vaginitis)
- May also work against nighttime bed wetting in children
- May help relieve problems with the prostate, problems urinating due to prostate enlargement and male infertility; it may boost health of the male and female glands, and positively affect conception and carrying to full term in women
- May harmonize adrenal gland function, help control blood pressure and the amount of erythrocytes
- May be effectively used to treat locomotor system disorders – joint and spine pain, osteoarthritis, rheumatoid arthritis, rheumatism, gout and ankylosing spondylitis
- May help alleviate osteoporosis, especially in terms of prevention
- May help treat migraines and other headaches (temples and forehead), as well as hearing ailments
- May stimulates lymphatic and immune system function, rid the body of heavy metals, and eliminate swelling of lower extremities and eyelids
- May be suitable for people with allergies and asthma
- May prevent recurring strep throat and middle ear infections
- May help alleviate skin complaints, such as eczema and acne
- May improve the quality of teeth, nails and hair, and protect hair from premature graying
- May help treat lack of energy and chronic fatigue
- May help treat cold intolerance

Usage of Renol for the psyche

- Inability to relax, distrust associated with suspicion and cynicism, shyness, indecisiveness, resignation, unrest related to fear and feeling of constant threat, CNS hyperactivity, mainly in children with ADD/ADHD

Renol brings trust in life, a feeling that all is as it should be, courage to move forward and leave things to their natural course.

To achieve greater effect, we recommend combining Renol with the cream Artrin from The Five Element Regeneration® - Herbal Body Creams (applied to affected areas, reflex zones, and massage of acupuncture paths).

Composition of Renol

Spiny restharrow: It may be used to treat metabolic disorders, urinary stones and sand, gout, general edema and rheumatism.

Heather: It may have disinfectant and diuretic properties, be used to treat kidney stones and sand, inflammation of the urinary bladder, including an enlarged prostate gland, rheumatism, joint pain and swelling.

Tarragon: It contains iodine, may improve metabolism, be used to treat irritable bowel syndrome, as a tonic and an antisclerotic agent.

Black elderberry: It contains rutin, which may have beneficial effects on vascular walls. It may be used to treat diseases of the intestines and the urinary bladder, as well as contact eczema. It contains vitamin C.

Greater burdock: It may be used to treat gout, rheumatism, chronic eczema, inflammatory conditions of the digestive tract, and urolithiasis.

Garden nasturtium: It contains a natural antibiotic, which – even in the smallest concentrations – may act on 46 members of the Staphylococcus bacteria group. It may be used to treat urinary tract infections.

European black currant: It may support metabolism. It contains magnesium salts and B vitamins and may be used to treat rheumatism, urinary tract and bladder inflammation.

Herb Robert: It may be used to treat blood in urine, intestinal infections, urolithiasis, renal diseases, neuritis, sciatica, swelling, eczema and infertility.

Three-lobed beggartick: It may accelerate metabolism, be used to treat hepatic and renal diseases, psoriasis, eczema and allergies. It may stimulate the adrenal glands.

Prostrate knotweed: It may be used to treat gout, rheumatism, diarrhea, eczema, bronchitis, renal and bladder diseases. It may help remove sand and small stones.

Goldenrod: It may be used in urology to treat renal diseases, male glands, prostate and testes, protein in urine, gout, rheumatism, urolithiasis, swelling and arthritis.

Canadian horseweed: It may be used to treat gout and internal bleeding, bladder and renal infections, eczema, rheumatism, colds, prostate diseases and cancer.

Queen of the meadow: It may be used to treat rheumatism, swelling, eczema, polyarthritis, renal and bladder diseases. It may prevent putrefaction in the digestive tract.

Herb of the cross: It may affect hepatic, renal and spleen functions. It may be used to treat skin diseases, bronchitis and trigeminal neuralgia.

Smallflower hairy willowherb: It may have a beneficial effect on the entire urogenital system. It may be used to treat renal and bladder infections, as well as prostate issues.

Renol also contains essential oils (e.g. lemon, anise, juniper) and information from plants, oils and minerals (e.g. jasper, moldavite, fluorite and silver).

Recommended dosage and method of administration

Posology: For adults 2–7 drops 1–3 times per day, for children ages 12 years and up 7 drops per day, children ages 3 years and up 2 drops per day.

Method of administration: Shake well prior to use (21 times). This causes dynamization of the information components, thus increasing the preparation's potency. Use half an hour before or after a meal, best diluted with water, or put drops on a spoon and apply directly. In order to enhance detoxification of the body, it is essential to increase fluid intake during a regenerative process. Do not exceed the recommended daily dosage. Consult the use and exact dosage with your doctor or therapist.

We recommend taking minimum doses for chronic diseases; in acute stages we recommend increasing the doses. If the condition deteriorates temporarily, the doses must be reduced until the condition returns to its previous state and only after that may the original dosage be resumed.

It is not advisable to stop taking the preparation, because there is a reverse regenerative process (reverse reaction) taking place, during which symptoms of older diseases may appear. This phenomenon is proof that your body is responding positively, indicating that healing is taking place!

Warning: The product is not intended for children under 3 years. If you are pregnant or breast-feeding, consult use with your physician. Suitable for diabetics. Dietary supplements are not intended to replace a varied diet.

For more detailed information, see The Five Element Regeneration® brochure, detailing, among other things, the fundamental energy channels and relationships between organs.

Storage: Keep out of reach of children. Store in a dry place, out of direct sunlight, between 10°C and 25°C. Protect from frost.
